

FOURPOINT

Industrial Services Inc.

We are an Alberta based Industrial Services company located in Stony Plain, Alberta. Our expertise in structural and fabricated steel products, civil work and the provision of rental equipment allow us to deliver exacting craftsmanship and service to our clients in a safe and economic manner.

As a Division II Company, with CWB CSA Standard W.47.1 Certification, we have a reviewed and qualified process meeting all requirements specified in that Standard.

Four Points that mean a lot to us:

Clarity – We understand that to grow our corporation, we must listen carefully to the needs of our Clients. Being clear and confirming what is expected provides us the direction to perform well and deliver.

Confidence – Utilizing the skills, focus and certifications of our team ensures that we provide quality products and service in an ever more demanding industrial market.

Credibility – The FOURPOINT team, our brand, our products and service are what we stand behind, Every Day, proudly. Our reputation matters and we have earned it.

Consistency – We arrive at the finish line for each project by being accountable for safe, quality deliverables and goals. We measure our effectiveness and strive to make improvements on a continual basis. We treat our obligations to our team, clients and the community seriously, with respect.

Fabrication

Our dedicated team of professionals are proud of our safe, quality and affordable fabrication solutions. Using our high definition plasma CNC equipment we can effectively provide precision cutting and fabrication in carbon steel, stainless steel and aluminum.

We deploy our skills to quite a varied spectrum of clients, responding to needs for research and development projects through to crane spreader bars for industrial hoisting applications and tons of steel projects between.

In our world of fabrication, a continued emphasis is placed on continually growing our skills through training and the addition of updated equipment. This behavior is a good business practice we believe in.

FOURPOINT Industrial Services Inc. has industry relationships garnered over our many years that allow us access to economical and quality surface preparations and protective coatings such as galvanize or blast and paint. We can coordinate those efforts and the transportation of fabricated products to further consolidate project savings.

We deliver our fabricated products and industrial services as promised in terms of an overall quality experience, with great craftsmanship.

Safety

At FOURPOINT Industrial Services Inc., we are proud to have active and supportive participation by all of our team when it comes to operating safely.

From the first moment with our company at Orientation, through to the daily assessments of jobsite and

task risk assessments, safety meetings, site inspections and wearing the appropriate PPE, we strive to maintain and continually improve our safety process.

We embrace and are committed to being in compliance with all operating codes, regulations and standards as they apply to our industry. In strong support of our Safety program, we encourage innovation when it comes to reducing negative exposure to unsafe conditions or harmful environments for our team, our clients and the communities in which we operate.

Our ongoing goal is Zero Harm to people and the environment as we continue to provide a safe, healthy, productive and viable place of employment for our team and a reliable source of support for our clients.

Civil Work

FOURPOINT Industrial Services Inc. specializes in site preparation, bulk and detail excavations and a wide array of project support activities for commercial and industrial projects. With our long history of industrial civil earthwork and support services our team understands the urgency and necessity of timely response.

Projects are often an orchestra of many contractors with a common goal to achieve project success. We have the experience to work on multi -contractor and multi- trade sites and to effectively coordinate our efforts to meet our client's expectations.
